PROFESSIONAL SUMMARY

Experienced React / React Native / Next.js Developer with 7 years of experience in building scalable web and mobile applications. Proficient in optimizing performance and delivering production-grade features in various industries including fintech and SaaS.

WORK EXPERIENCE

- Engineered scalable web and mobile applications using React, Next.js, and React Native, enhancing application responsiveness and maintainability.
- Developed and deployed real-time systems utilizing WebSockets for live captioning, resulting in improved user engagement and interaction.
- Translated complex Figma designs into responsive, accessible user interfaces, ensuring a high standard of usability across multiple devices.
- Optimized application performance, reducing latency by ~30% and improving overall user experience significantly.
- Integrated RESTful APIs and managed complex application state effectively, facilitating seamless data flow and user interactions.

PROJECTS

FMG Suite

September 2025 – July 2026

Full Stack Developer

- Engineered UI enhancements for a SaaS marketing platform serving financial advisors, improving application performance, accessibility, and overall user experience.
- Optimized cross-browser compatibility and responsive layouts, ensuring consistent functionality across Chrome, Edge, Firefox, and Safari.

CaptionCall Admin & Web

June 2025 – September 2025

Full Stack Developer

- Architected a real-time captioning platform with dashboards, role-based access control (RBAC), and WebSocket-powered live streaming.
- Implemented intuitive user interfaces and workflow enhancements that streamlined operations and improved overall usability.

VITAL 4

July 2021 – June 2025

Front End Developer

- Designed and maintained operational dashboards for interpreter scheduling, workforce management, and day-to-day operational reporting.
- Built dynamic React features that improved user productivity, workflow efficiency, and application responsiveness.

Krystal Education

March 2021 – June 2021

Full Stack Developer

- Developed dashboard and notification systems for an educational platform, streamlining course management functionality.
- Implemented responsive, user-centric interfaces following modern UI/UX best practices to improve accessibility and usability.

Well360

January 2021 – April 2021

Front End Developer

- Built a content management platform featuring search, pagination, publishing workflows, and content administration tools.
- Enhanced data accessibility and navigation through intuitive interfaces, improving content discoverability and user engagement.

Australis Asset Management

November 2020 – February 2021

Front End Developer

- Engineered asset tracking, filtering, and management workflows, including data entry and maintenance forms.
- Developed responsive React interfaces with dynamic forms, search, filtering, and validation to improve data accuracy and streamline asset lifecycle management.

City Finance Mobile

September 2020 – December 2020

Mobile Developer

- Delivered a mobile loan application and tracking solution with user onboarding and notification features.
- Integrated REST APIs, secure authentication, and state management to deliver a scalable, high-performance mobile lending experience.

Fiddle Mobile

July 2020 – October 2020

Mobile Developer

- Created an inventory management application with advanced filtering, reporting, and data visualization capabilities.
- Collaborated with cross-functional teams to deliver scalable mobile features, optimizing application performance and streamlining inventory management workflows through intuitive user interfaces.

Delta Panels

May 2020 – August 2020

Front End Developer

- Implemented e-commerce functionality, including product catalogs, shopping cart workflows, and user interactions.
- Produced responsive React interfaces, integrated REST APIs, and optimized product browsing, checkout, and order management workflows to enhance the online shopping experience.

Pupwalk

March 2020 – June 2020

Mobile Developer

- Developed a React Native digital asset application featuring secure wallet management and reusable UI components.
- Built responsive React Native interfaces, integrated REST APIs, and implemented secure wallet management and state management to deliver a seamless digital asset experience.

Boogie Doggies

November 2019 – April 2020

Front End Developer

- Designed a gamified dashboard experience with activity tracking and engagement features.
- Built responsive React interfaces, integrated REST APIs, and implemented interactive dashboards and reusable components to improve user engagement and application usability.

WhereWeWow

July 2019 – October 2019

Mobile Developer

- Crafted an augmented reality map interface with interactive and real-time location-based experiences.
- Integrated location services, REST APIs, and interactive mapping features to deliver responsive, real-time geospatial experiences.

EDUCATION

Saint Louis University

BS Mechanical Engineering

CERTIFICATIONS & SKILLS

Skills: JavaScript, TypeScript, React, Next.js, React Native, Node.js, Express, REST APIs, jQuery, HTML, CSS, PERN/MERN, Git, Jira, Figma, Generative AI.

Certification: Mechanical Engineering Licensure Examination – 84.4%
